No Country Group Replaced Lost Aid With Its Own Health Spending

Change in government health spending per US$1 of aid lost, by country group, 2002-23

Dot = central estimate; bar = 95% range. Below 0: government health spending fell with the aid; above 0 would be replacement.

Source: IHME Health Spending 1995-2023 (GHES per person); IHME DAH 1990-2026. Country and year fixed effects; country-clustered standard errors.
